The Daily Standard. Now that the Dominion Purliament electors of Cariboo Discrict will have a has been dissolved and the write are in representative of whom they need not be the hands of our local authorities, the ashamed. From all we can learn the elections for the Island and lower Main- con est between them will be a close one, elections for the Island and lower Main-land constituencies will most likely take place in three or four weeks time, but owing to the distance of the Cariboo and various candidates before the country, Yale-Kootenay Districts, and the diffi- no matter which of the whole shall conculty of communicating therewith, it will stitute the six to represent the interests of this Province in the Dominion Parlia later before the elections can be held in those districts. In the Electoral District command the respect of the "assembled of Victoria there are three candidates in wisdom" of the Dominion of Victoria there are three candidates in the field, seeking the suffrages of the electors, v'z, A. DeCosmos, H. Nathan, and R. Beaven. Each of these gentlemen have thoroughly canvassed the district, and although but two out of the three can possibly be elected, nevertheless all express themselves as perfectly confident of being returned. There is however, many a slip between the cup and the lip, and we shall be very much surprised if one of them be not elected to stay at home. There is an apparent lack of interest in election matters in this of interest in election matters in this country, such as prevails in no other Province in the Dominion; but it is not because the people of British Columbia are wanting either in patriotism or a due appreciation of the importance of the duty devolving apon them of choosing fit and proper persons to represent them in the Parliament of the Dominion. The reason for it is that there are as yet LIFE ASSURANCE none of those local issues here which divide parties elsewhere, and upon which candidates for parliamentary honors go to the constituencies and base their claims for the suffrages of the electors. We doubt not in due time party views and feelings will enter just as freely into our electoral contests as they do elsewhere. At present, however, the elections here are mainly decided upon the grounds of personal preference, irrespective of political considerations, particularly so as regards the representation in the House of Commons, inasmuch as the country as a whole may be said to be a unit in favor of the present Government. There are no two opinions in the country on that point. Mesers. DeCosmos and Nathan have already given substantial evidence of their fealty to the Government of Sir John A. Macdonald. and no one doubts that if returned as the representatives of this district they will continue to support that Government so long as the interests of this Province will justify them in so doing. Nor have we any reason to doubt that should Mr. Beaven be elected, he will also give that Government a consistent and liberal support. Each of those gentlemen have a claim upon the electors for past parliamentary services. Mr. DeCosmos has spent the best part of his life in the service of his fellow citizens, legislating for the general welfare of this his adopted country, and in acknowledgment of those services we entertain not the shadow of a doubt that he will be returned again at the head of the pol Mr. Nathan has also served one session in the local legislature and one session in the House of Commons at Ottawa, and we will do him the justice to say we are not aware of any act that he has performed that would merit a withdrawal of the confidence which his constituents reposed is him at the last election. Mr. Beaven has sat one session in the local House as a representative for this city, and has given substantial proof that the electors wisely bestowed their suffrages when they elected him to that position. Of the twenty-five members of the local House, we have no hesitation in ranking him among the foremost in point of ability and usefulness. In the absence, therefore, of party issues, and where the contest between Mesers. Nathan and Beaven is simply one of men and not of measures, we refrain from any effort one way or another to influence the electors in their choice as between those two can didates. Both are young, both have given evidence of their fitness for the position to which they aspire, and in the hands of the electors we shall leave them. In Vanconver District Mr. R. Wallace, the late member, and Mr. A. Bonster pre the candidates. It is due to Mr. Wallace to say that during the last session of the Dominion House he discharged the duty he owed to his con-attuents with marked ability, and never missed an opportunity to serve their interests. Should be not be elected, we shall regret his absence from a position he is so well qualified to fill. There will be this consolation, however, should Mr. Wallace be defeated—he will be succeeded by a gentleman whose past parlia-mentary career in the local House en-fitles him to the fullest measure of the onfidence of the electors of Vancouver District. Mr. Bunster is an indefatigable, untiring, and earnest worker, and should be go to Ottawa as the representa tive of Vancouver District, we will guarantee the interests of that district will be well looked after. In New Westmineter District we presume there will be no contest, as Mr. Hugh Nelson is the only candidate yet in the field, and the ination is advertised to take place on the 23d instant. In the Yale-Kootenay District R. Smith, M. P. P., Mr. J. G. Norris, and Mr. A. L. Fortune are spoken of as candidates, but we are not sufficiently well acquainted with public sentiment in that district to express any opinion as to the chances of the respecpererogation to say anything about Mr. Smith for the information of the electors of that district, for in that section of British Columbia his name is as familiar sehold word, and as a representative men his record is well known to hem. Mr. J. G. Norris is a resident of this city, a thorough Liberal in politics, and if elected would make an excellent member. Mr. Fortune is a resident of

ocition, we are not prepared to say. In

member, and T. B. Humphreys, one of the representatives of Lillouet District in the local House. Both are gentlemen ment, the representation will be such as to reflect credit upon the Province and

GENTLEMEN: -On leaving Ottawa it was my intenturn home, I have been daily receiving from every quarter of the country the most urgent solicitations to again become a Candidate to represent your District in the Federal Parliament. After mature consideration I the Federal Parliament. After mature consideration I have acceeded to the request of my friends, and have now the honor once more to solicit your suffrages at the coming election. In doing so I would state that it is not my intention to canvass the district, or wait personally on the Electors. My having recently spent considerable time in canvassing [this extensive district, and business engagements this season renders my doing so impossible. As the electors are well sequainted with my political views on the leading questions of the day, as well as my public acts in Parliament last session,—if they under those circumstances think fit to return me they under those circumstances think fit to return m ing a generous support again as their representative. I pledge myself to use my best endeavors to promote the local and general interests of the country. I shall also give the present Governthe national importance of the Railted at Esquimalt. advance the immediate and future progress and develope. ment of this Province. Everywhere in the Easter portions of the Dominion, at present is to be witness the most marvelous progress, and prosperity, in every department of trade and industry. Agriculture, Com-merce and manufactures were never before in such a flourishing a condition; all this in a great measure is the result of wise legislation, initiated and carried out by the present Government in whom I recognise the leader of the party of progress. And I hold it to be the duty of your representative to work with this Government their endeavours to raise this Province to the like deg

of vitality and prosperity. The liability of the outlying settlements to freque lepredations by the Indians, calls for some neasure tion fr m the Government. I shall again urg upon the Ministry the necessity of employing as Armed Vessel for this purpose, believing that prevention is at all times better than cure, In conclusion I can only say that should I again have the honor to represent you in Parliament, whatever ability I may possess, will be devoted to the advancement and wellbeing of the whole
